

ICEmobile : PanelConfirmation Tag

This page last changed on May 20, 2013 by [judy.guglielmin](#).

<panelConfirmation>

The <mobi:panelConfirmation> tag is a popup allowing users to either confirm or cancel a submit. It may be used with a `menuItem` or a `commandButton`.

Usage

```
<mobi:fieldsetGroup>
  <mobi:fieldsetRow>
    <mobi:inputText name="testInput" type="text" autoCorrect="off"
      placeholder="test input for form submit" value="{pcInfo.testInput}"/>
  </mobi:fieldsetRow>
  <mobi:fieldsetRow>
    <mobi:commandButton value="TestPanelConfirmation" id="button1"
      type="button"
      panelConfirmation="pc1"
      buttonType="default"/>
  </mobi:fieldsetRow>
</mobi:fieldsetGroup>
<mobi:panelConfirmation id="pc1"
  title="{pcInfo.title}"
  message="{pcInfo.message}"
  type="{pcInfo.type}"
  acceptLabel="{pcInfo.acceptLabel}"
  cancelLabel="{pcInfo.cancelLabel}"
  style="{pcInfo.style}"
  styleClass="{pcInfo.styleClass}"/>
```

Tag Documentation (not available yet until 1.3.BETA1 release)
