

ICEmobile : Menu Button Tag

This page last changed on May 20, 2013 by [judy.guglielmin](#).

<mobi:menuButton> and <mobi:menuButtonGroup> and <mobi:menuButtonItem>

MenuButton can be used for selection of a list of items.

Usage

```
<mobi:menuButton id="buttonOne"
    name="selectedValue"
    selectedValue="{menuButtonInfo.selectedValue}"
    buttonLabel="{menuButtonInfo.buttonLabel}"
    selectTitle="{menuButtonInfo.selectTitle}"
    disabled="{menuButtonInfo.disabled}"
    style="{menuButtonInfo.style}"
    styleClass="{menuButtonInfo.styleClass}">
  <mobi:menuButtonGroup label="Group1" >
    <mobi:menuButtonItem id="item1a" label="oneA" value="1A"
      panelConfirmation="{menuButtonInfo.panelConfirmation}"
      submitNotification="{menuButtonInfo.submitNotification}"/>
    <mobi:menuButtonItem id="item2a" label="twoA" value="2A"
      submitNotification="sn1"/>
    <mobi:menuButtonItem id="item3a" label="threeA" value="3A"/>
  </mobi:menuButtonGroup>
  <mobi:menuButtonGroup label="Group2">
    <mobi:menuButtonItem id="item1b" label="oneB" value="1B"/>
    <mobi:menuButtonItem id="item2b" label="twoB" value="2B"
      panelConfirmation="pc1"
      submitNotification="sn1"/>
    <mobi:menuButtonItem id="item3b" label="threeB" value="3B"/>
  </mobi:menuButtonGroup>
</mobi:menuButton>
```
