

ICEmobile : Fieldset Tag

This page last changed on Jan 17, 2013 by [philip.breau](#).

<mob:fieldsetGroup> and <mob:fieldsetRow>

Fieldsets can be used to group content in a mobile-friendly layout.

Usage

```
<mob:fieldsetGroup inset="true">
  <mob:fieldsetRow>
    <mob:commandButton name="submitB" buttonType="default"
      value="default"/>
    <mob:commandButton name="submitB" buttonType='important'
      value="important"/>
    <mob:commandButton name="submitB" buttonType='attention'
      value="attention"/>
    <mob:commandButton name="submitB" value="plain"
      style="float:none;"/>
  </mob:fieldsetRow>
  <mob:fieldsetRow>
    You Pressed:
    <c:if test="{pressed != null}">
      {pressed}
    </c:if>
  </mob:fieldsetRow>
</mob:fieldsetGroup>
```
