

ICEmobile : SubmitNotification Tag

This page last changed on May 28, 2013 by [judy.guglielmin](#).

<submitNotification>

The <mobi:submitNotification> tag is a styled modal dialog which shows the user the unavailability of the application until the page is updated, at which time the modal dialog disappears. See documentation on [commandButton](#) tag for how to dismiss the blocking popup.

Usage

```
<mobi:fieldsetGroup>
  <mobi:fieldsetRow>
    <mobi:inputText name="testInput" type="text" autoCorrect="off"
      placeholder="test input for form submit" value="{snInfo.testInput}"/>
  </mobi:fieldsetRow>
  <mobi:fieldsetRow>
    <mobi:commandButton value="TestSubmitNotification" id="button1"
      type="button"
      submitNotification="sn1"
      buttonType="default"/>
  </mobi:fieldsetRow>
</mobi:fieldsetGroup>
<mobi:submitNotification id="sn1"
  style="{submitNotification.style}"
  styleClass = "{submitNotification.styleClass}"
  disabled="{submitNotification.disabled}">
  <h3>Working....</h3>
</mobi:submitNotification>
```

Tag Documentation (not available yet until 1.3.BETA1 release)
