

ICEmobile : ICEmobile Component Suite

This page last changed on Aug 15, 2014 by [philip.breau](#).

Overview

A collection of JSF components that provide appropriate UI controls for mobile applications. The suite includes:

- **Layout and Navigation Controls** for page layout, navigation, and theming
- **Input and Selection Controls** for handling user input
- **Media Controls** for presenting audio, video and images
- **Native Controls** for accessing device capabilities like camera, camcorder, and microphone

MOBI Components Documentation

Components

Layout and Navigation

- [Accordion](#)
- [Carousel](#)
- [Content Navigation Bar](#)
- [Content Pane](#)
- [Content Stack](#)
- [Content Stack Menu](#)
- [DataView](#)
- [Device Themes](#)
- [Fieldset](#)
- [Large View](#)
- [Lists](#)
- [Page Panel](#)
- [Panel Confirmation](#)
- [Panel Popup](#)
- [Small View](#)
- [Split Pane](#)
- [Submit Notification](#)
- [Tab Set](#)
- [\[ViewSelector\]](#)
- [ViewManager](#)

Input and Selection

- [Buttons](#)
- [Date Spinner](#)
- [Fieldset](#)
- [Flip Switch](#)
- [Geolocation](#)
- [Google Maps](#)

- [HTML5 Input](#)
- [Menu Button](#)
- [QR Code Generator](#)
- [Time Spinner](#)

Media

- [Audio Player](#)
- [Image](#)
- [Video](#)

Native

- [Augmented Reality](#)
- [Camcorder](#)
- [Camera](#)
- [Fetch Contact](#)
- [Microphone](#)
- [Thumbnail](#)
- [QR Code Scanner](#)
- [RegisterCloudPush](#)

Other

- [Ajax](#)
- [Device Resource](#)
- [Google Analytics](#)
- [OnlineStatus](#)

Examples

The following examples are available with this distribution, providing high-level demonstrations as well as documentation and instructions on usage. An ant target is available which builds a war to be deployed to any servlet-3.0 api application server. A servlet-profile target is available for containers like tomcat-7 (which contains servlet-3.0) and web-profile is available for glassfish3.1, jboss7, etc.

Samples included in the distribution bundle are:

ICEmobile Showcase

Shows the various components and themes available in the ICEmobile-Faces Component Suite. Each component includes an example of usage and documentation, as well as markup and backing bean resources.

Example

[ICEmobile Showcase](#)

If you download a Device Container from one of the mobile applications stores, it will automatically launch the showcase for you.

MediaCast

Shows device capability integration across device types. Photos, videos, and audio can be captured on a client device and shared on a public media carousel.

Example
