

ICEmobile : ICEmobile JSP Tag Library

This page last changed on May 20, 2013 by [judy.guglielmin](#).

Overview

A collection of JSP tags that provide appropriate UI controls for mobile applications. The library includes:

- **Layout and Navigation Controls** for page layout, navigation, and theming
- **Input and Selection Controls** for handling user input
- **Media Controls** for presenting audio, video and images
- **Native Controls** for accessing device capabilities like camera, camcorder, and microphone

Tags

Layout and Navigation

- [Accordion Tag](#)
- [Carousel Tag](#)
- [Device Themes](#)
- [Fieldset Tag](#)
- [LargeView Tag](#)
- [Lists Tag](#)
- [PagePanel Tag](#)
- [Panel Popup Tag](#)
- [SmallView Tag](#)
- [SplitPane Tag](#)
- [TabSet Tag](#)

Input and Selection

- [Buttons](#)
- [Menu Button Tag](#)
- [DateSpinner Tag](#)
- [FlipSwitch Tag](#)
- [Geolocation Tag](#)
- [HTML5 Input](#)
- [TimeSpinner Tag](#)
- [PanelConfirmation Tag](#)
- [SubmitNotification Tag](#)

Native

- [AugmentedReality Tag](#)

- [Camcorder Tag](#)
- [Camera Tag](#)
- [FetchContact Tag](#)
- [Microphone Tag](#)
- [Thumbnail Tag](#)
- [QR Code Scanner Tag](#)

Other

- [GetEnhanced Tag](#)
- [GoogleAnalytics Tag](#)
- [Video Player Tag](#)
- [Audio Player Tag](#)

Examples

The following examples are available with this distribution, providing high-level demonstrations as well as documentation and instructions on usage. An ant target is available which builds a war to be deployed to any servlet-3.0 api application server. A servlet-profile target is available for containers like tomcat-7 (which contains servlet-3.0) and web-profile is available for glassfish3.1, jboss7, etc.

Samples included in the distribution bundle are:

ICEmobile JSP and Spring MVC Showcase
